EXPERIENCE

Sentric Music, Liverpool — *Web Developer*

APRIL 2015 - PRESENT

- Rapid prototyping in collaboration with non-technical colleagues, using HTML5, CSS3, KnockoutJS and jQuery.
- Working in MVC5 to create controller methods, models and views using C# and Razor.
- Defining design language, ensuring good user experience and visual appeal.
- Building useful tools, such as a monthly artist information report generator and a tool to automatically upload PDFs to Amazon S3 and link to them on the Sentric Music site.
- Presenting large amounts of data using a combination of MVC, HTML5, CSS3, jQuery and Highcharts.
- Working with remote colleagues, in collaboration and as a project manager.

Webrevolve, Liverpool — *Frontend Web Developer*

JULY 2012 - AUGUST 2013

- Built sites for many different clients using HTML, CSS, PHP, JavaScript and WordPress.
- Worked with designers to translate their designs into fully functional websites.
- Delivered Cross Browser/Cross Platform solutions.
- Provided technical support and training for clients.
